- Sales Phone #:** 250-719-7824

With our extensive network of facilities, SECURE helps our customers each and every day by challenging what's possible and finding the right solution for each project. This facility accepts:

Dawson Creek's Class 1B disposal well accepts produced, waste, and flowback fluids with a waste processing pad that can accept liquid and solid wastes from Hydro Vac and Vac trucks. For treating and terminalling, the on-site treater vessel is equipped to handle oil-water emulsion and condensate volumes. Dawson Creek is pipeline connected to the Pembina Peace System where we terminal oil for our customers.
